### Summer fun Plain training

*L'anglais pour voler*  
available on

Available on the Appstore, the collection of "In English, please" articles with the audio recordings when available. The application has recently been updated with the articles up to May 2019, offering more than 140 pages of aviation-related English practice right at your fingertips.

Four pilots, each flying a different aircraft, decide to practice various aspects of flying in distinct locations. From the clues, find out who flies which aircraft, who is practicing what, and where. Use the chart to record information from the clues and narrow down the possibilities: mark a box with a tick  for a positive deduction; or with a cross  for a negative one.

- 1 - Ben practiced upset recovery, but not in Poitiers.
- 2 - The pilot who went for a local flight took off from Le Touquet. He was not flying a DR400.
- 3 - The pilot who went for a cross-country flight was flying a C172, but it was not Eliot.
- 4 - Of the two pilots who flew the PA-28 and the DR400, one was Jordan and the other one practiced circuit training.
- 5 - The pilot who took off from Rennes was not flying a PA-28.
- 6 - Chris's field of departure was Vichy.
